RE: Shariah Board

To whom it may concern,

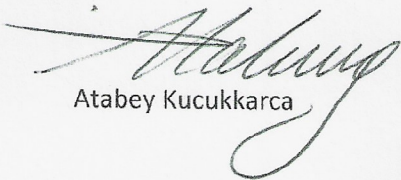

This letter is to bring attention to the slaughter practices certified by the Shariah Board. As you are aware, SENAT POULTRY, does a hand slaughtered product, with NO PRE OR POST slaughter stunning. Recent discoveries have brought to our attention, that other facilities, are doing a PRE STUNNED, hand slaughtered product that is also certified by the Shariah board.

As a business practice, comparing two companies and putting them in the same category, is not a fair way to promote two different types of slaughter.

We ask and DEMAND, that the public be aware of the differences between the companies and their practices with and without stunning! As shariah board is doing a service for the people, the people deserve the right to know if their products are stunned, or not. I believe the certificate should clearly state, which method is used during zabiha procedures.

Please get back to us as soon as possible.

Thank you

Atabey Kucukkarca
